Course Enrolment Guide

University of Toronto

Centre for International Experience

Course Load

Exchange students are expected to be enrolled in a **full-time course load**.
A full-time course load is determined by the host faculty

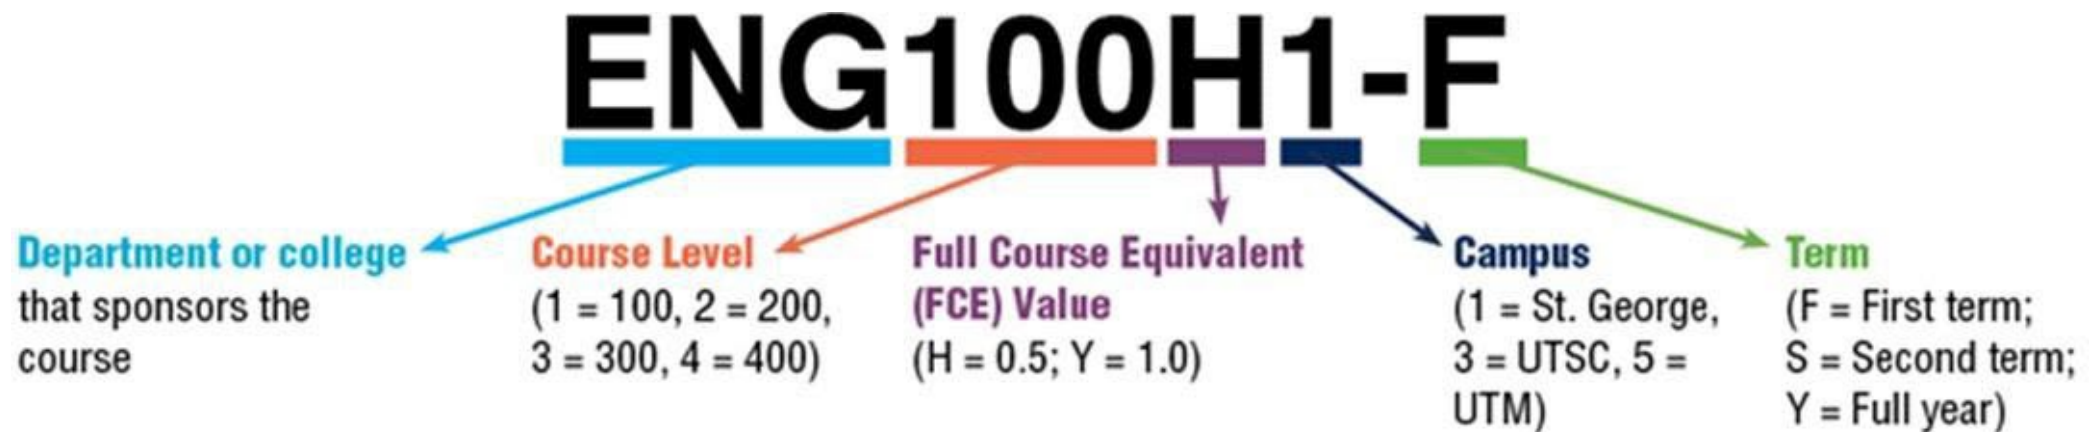

Undergraduate:

- Faculty of Arts & Science: 3-5 courses per term
- Faculty of Applied Science & Engineering: 4-5 courses per term

Graduate:

A full-time course load for most graduate units is 2-4 courses per term. You will need to consult your host graduate unit for its course load requirements.

How to read a course code?

Visit the Academic Calendar for more information about [understanding course codes](#).

Credits

- **H** (half) course = 0.5 credit
Y (full year) course = 1.0 credit

Course Code	Period	U of T Credit
F = Fall term (e.g., ENG100 H 1- F)	Sep - Dec	0.5 (half credit)
Y = Fall and Winter terms (e.g., POL103 Y 1- Y)	Sep - Apr	1.0 (one credit)
S = Winter term (e.g., PSY100 H 1- S)	Jan - Apr	0.5 (half credit)

- Select courses offered during your exchange term. You cannot request any Y (Sep to Apr) courses if your exchange is for **one** term only.

FACULTY OF ARTS & SCIENCE (EXCLUDING ROTMAN COMMERCE)

At U of T, the Faculty of Arts & Science incorporates all arts, humanities, social sciences, and sciences (including computer science) programs/departments. U of T Arts & Science is one of the most comprehensive and diverse academic divisions in North America and the heart of one of the world's leading universities.

Exchange students admitted to U of T Arts & Science are able to take courses from multiple departments within the faculty – over 4,000 courses in a wide range of disciplines. There is no restriction on taking courses from within only one discipline/department.

ST. GEORGE CAMPUS

U of T's downtown St. George Campus blends historical architecture and inviting green spaces as a backdrop to a truly remarkable community.

Set in the centre of Toronto, one of the world's most dynamic and diverse cities, it is a place where students, staff and faculty engage with a vibrant academic life and countless co-curricular activities.

Just beyond the campus are the many events, neighbourhoods and industries that Toronto has to offer. From Nuit Blanche, an annual art festival that runs from dusk until dawn, to sports games at one of the Varsity Centre's high-performance facilities, this location is intrinsically linked with the city's renowned cultural offerings to create a rich and unique experience for everyone.

HOW DO I APPLY?

ACADEMIC CALENDAR

ACADEMIC TIMETABLE

Academic Calendar: Pre-requisites

CSC310H1: Information Theory

Hours: 24L/12T

Measuring information. Entropy, mutual information and their meaning. Probabilistic source models and the source coding theorem. Data compression. Noisy channels and the channel coding theorem. Error correcting codes and their decoding. Applications to inference, learning, data structures and communication complexity.

Prerequisite: 60% or higher in [CSC148H1](#), [CSC263H1](#)/ [CSC265H1](#), [MAT223H1](#)/ [MAT240H1](#)

Distribution Requirements: Science

Breadth Requirements: The Physical and Mathematical Universes (5)

- You are required to have completed all pre-requisites before enrolling in a course.
- Ensure that you have taken the necessary pre-requisite courses at your home institution (or in first semester) when choosing your U of T courses. The department will review your transcript and course descriptions to determine your eligibility for the course.

Academic Calendar: Pre-requisites

CSC310H1: Information Theory

Hours: 24L/12T

Measuring information. Entropy, mutual information and their meaning. Probabilistic source models and the source coding theorem. Data compression. Noisy channels and the channel coding theorem. Error correcting codes and their decoding. Applications to inference, learning, data structures and communication complexity.

Prerequisite: 60% or higher in [CSC148H1](#), [CSC263H1](#)/ [CSC265H1](#), [MAT223H1](#)/ [MAT240H1](#)

Distribution Requirements: Science

Breadth Requirements: The Physical and Mathematical Universes (5)

- Comma (,) and semi-colon (;) = **AND**
- Slash (/) = **OR**

E.g. Pre-requisites for CSC310H1:

1. 60% or higher in a course equivalent to CSC148H1 (Introduction to Computer Science) **AND (,)**
2. A course equivalent to CSC263H1 (Data Structures and Analysis) **OR (/)** CSC265H1 (Enriched Data Structures and Analysis) **AND (;)**
3. A course equivalent to MAT223H1 (Linear Algebra 1) **OR (/)** MAT240H1 (Algebra 1)

Academic Timetable

Timetable Builder: <https://ttb.utoronto.ca/>

- Step 1: Select your host faculty as the Faculty/Division and select your exchange term.
- Step 2: Narrow down your search by selecting the department or the course code (if known).

Search for Courses

Step 1: Select Faculty / Division and Session (Required)

Select one or more faculties or divisions from the list, as well as a session or specific terms you'd like to search for courses in.

If you remove a selected Faculty / Division or Session, any associated courses or departments selected in Step 2 will also be removed.

Faculty / Division (Required) Faculty of Arts and Science X	Session (Required) Fall 2023 (F) X Winter 2024 (S) X Fall-Winter 2023-2024 (Y) X
---	---

Step 2: Add More Filters (Optional)

Narrow down your search results by selecting a specific course, entering a keyword, or selecting departments. You may add additional filters (level, time, etc.) to narrow your results further.

Course Code, Course Title, or Keyword Type something	Department / Subject Area Department of Economics X Type Something
--	---

Lectures

LEC0101

Day/Time	Location	Instructor(s)	Availability	Waitlist	Enrolment Controls	Delivery Mode
Monday 12:00 PM - 2:00 PM	TBA	TBA	130 of 130	0 Students	Yes (P)	In Person
Thursday 2:00 PM - 4:00 PM	TBA				Show Explanation	

Add to Timetable

- Lectures, Tutorials, & Practicals:** All courses offer at least one lecture section, and may also offer tutorial and/or practical sections (LEC = lecture, TUT = tutorial, PRA = practical)
- Availability:** Indicates the number of remaining spaces available in the course for the lecture section
- Waitlist:** Indicates the number of students waitlisted in the course for the lecture section
- Delivery Mode:** Indicates how the course is delivered (In Person, Hybrid, Online Synchronous, Online Asynchronous)
