Killam Fellowships Program

The Killam Fellowships Program offers exceptional undergraduate students the opportunity to study in the United States for one semester.

You can participate in one of two ways:

- Direct Exchange: Stay registered at your home university, pay your regular tuition, and study abroad as an exchange student.
- Open Competition: Apply directly to a host university and pay host tuition fees. Existing exchange partnerships between your home university and a non-partner host university fall under this category.

Experience a new culture, expand your academic horizons, and make connections that last a lifetime!
